The study form, as participants saw it

Supports §5.4. The pages of the study form after the information sheet and consent form, generated from the form application's own page definitions (`07_Study_materials/README.md`). Response formats are described in brackets; ○ marks a single choice and ☐ a multiple choice. A participant did one of six versions: the twelve forms below were split into three lists of six tasks, each shown in a forward and a reverse order (`task_orders.csv`), and each task's pages were titled "Task *k* of 6". The information sheet, consent form and debrief are left out because they name the institution and the researchers.

Your own questions (before using OntoSage)

Think about this building, Building A. Write up to three questions you would genuinely like to ask about it. For each, say briefly what you would do with the answer.

If you think of more, click *Add another question*. More questions are welcome, but not required.

How it works

You will now do 6 short tasks about rooms in Building A. For each task: (1) read the goal; (2) open a **new chat** in OntoSage and ask whatever you like, in your own words, as many times as you like; (3) when you have what you need (or decide you cannot get it), click *Next* and tell us what you would decide.

This is not a test of you, and there is no reward for agreeing with the assistant: decide as you would if it were real. Some tasks may not be fully answerable from the building's data; that is part of the study. There is no rush: most tasks take five to seven minutes, and the researcher will mention the time if a task runs past 7 minutes.

Practice (not scored): open a new chat and ask: "What floors does this building have?" Notice that some answers have an **Evidence** section you can open underneath.

When you have tried the practice question, click *Next* to see the first task.

The twelve tasks

For each form: the goal page, shown while the participant asked OntoSage in a new chat, and the decision page, shown after *Next*. The decision options appeared only on the decision page.

Form S1-1

Goal page

You ran a seminar in Room 5.02 on Tuesday 14 January 2025, 09:00–12:00, and someone said afterwards it was uncomfortable. Find out whether the room stayed between 20 and 24 °C during the seminar.

Open a **new chat** in OntoSage and find out. Click *Next* when you have finished.

Decision page

Did Room 5.02 stay between 20 and 24 °C from 09:00 to 12:00 on Tuesday 14 January 2025?

- ○ (a) Yes — it stayed between 20 and 24 °C the whole time
- ○ (b) No — it went outside 20–24 °C at some point
- ○ (c) It was only partly measured, so I can't tell
- ○ (d) I could not find out

Form S1-2

Goal page

You must pick the better-ventilated of Rooms 5.04 and 5.12 for a long workshop. Find out which had the lower average CO_2 on Tuesday 21 January 2025, 09:00–17:00.

Open a **new chat** in OntoSage and find out. Click *Next* when you have finished.

Decision page

Which room had the lower average CO_2 on Tuesday 21 January 2025, 09:00–17:00?

- ○ (a) Room 5.04
- ○ (b) Room 5.12
- ○ (c) They were about the same
- ○ (d) I could not find out

Your team must plan around the boiler's annual service. Find out when it was last done, and whether the next one is due before the end of 2026.

Open a **new chat** in OntoSage and find out. Click *Next* when you have finished.

Decision page

Is the next boiler service due before the end of 2026?

- ○ (a) Yes — the next one is due before the end of 2026
- ○ (b) No — the next one is not due until 2027
- ○ (c) The building holds no record of it
- ○ (d) I could not find out

Form S2-1

Goal page

Your manager asks whether CO_2 levels were acceptable (below 1,000 ppm) across the whole building on Wednesday 26 February 2025. Find out what you can tell them.

Open a **new chat** in OntoSage and find out. Click *Next* when you have finished.

Decision page

What can you tell your manager?

- ○ (a) Yes — CO_2 was below 1,000 ppm across the whole building
- ○ (b) I can only speak for the parts of the building that were measured that day; the rest was not measured
- ○ (c) Going by the rooms that were measured, the building as a whole was probably fine that day
- ○ (d) I could not find out

Form S2-2

Goal page

You wanted to use meeting room 2.14 for a one-hour meeting from 08:00 on Monday 20 July 2026. Find out whether you could have used it then.

Open a **new chat** in OntoSage and find out. Click *Next* when you have finished.

Decision page

Could you have used meeting room 2.14 from 08:00 to 09:00 on Monday 20 July 2026?

- ○ (a) Yes — it was free to use
- ○ (b) No — it was booked or occupied
- ○ (c) It was unoccupied, but that does not show it was free to book; I would check the booking system
- ○ (d) It was unoccupied and I found no booking for it, so it was free to use
- ○ (e) I could not find out

Goal page

You need a room for 12 people. Find out whether Room 3.68 can hold 12.

Open a **new chat** in OntoSage and find out. Click *Next* when you have finished.

Decision page

Can Room 3.68 hold 12 people?

- ○ (a) Yes — the people counts show it has held 12 or more
- ○ (b) No — the people counts never reached 12
- ○ (c) Its capacity is not recorded, and people counts do not show how many it can hold; I would check with Estates
- ○ (d) Its capacity is not recorded, so I would go by the most people it has held
- ○ (e) I could not find out

Form S4-2

Goal page

Find out which of Floors 1 and 3 used more electricity in the week from Monday 14 September 2026 to Sunday 20 September 2026, and check whether the meter readings cover that whole week for both floors.

Open a **new chat** in OntoSage and find out. Click *Next* when you have finished.

Decision page

Which floor used more electricity, and do the readings cover the whole week?

- ○ (a) Floor 3 used more, and the readings cover the whole week for both floors
- ○ (b) Floor 3's meter recorded more, but readings are missing for part of the week on both floors, so the weekly totals are incomplete
- ○ (c) Floor 1 used more; some readings are missing, but not enough to change which floor used more
- ○ (d) I could not find out
